How to use it

1. Print the pages on plain paper or light card, on A4 or Letter, as many times as you like.
2. Hang the countdown on December 1 and color one box each morning until the 24th.
3. For the countdown your way, write a small thing in each box first: a hot chocolate, a walk to see the lights, a card for a friend.
4. Color the four big pages with pencils, crayons or markers, then hang them up or give them away.

Print tips

- A4 and Letter pages are both in this file; print the one your printer takes.
- Line art only, so it prints fine in black and white.
- Light card takes markers without bleeding through.
