How to use it

1. Pick a few drawings for the month: one big one for the top, small ones for the boxes.
2. Draw the border along the top of your calendar or whiteboard first.
3. Write the month in one of the three styles under it.
4. Fill the boxes as the days go by: a present for the swap, a star for the party, a snowman for a snow day.

Print tips

- A4 and Letter pages are both in this file; print the one your printer takes.
- Print at Actual size or 100%, or keep it on a tablet next to you while you draw.
- Prints fine in black and white; on a whiteboard, one red and one yellow marker are enough.
