CORENK

Plan your week in the Corenk app
https://corenk.app/get?src=pdf-december

How to use it

1. Print the page on A4 or Letter. It is dated for December 2026, Tuesday the 1st to Thursday the 31st.
2. Write a category on each yellow line, then up to three habits under it. Keep them small: December is busy.
3. Tick the day's box each day you do one. Christmas Day has its own yellow column, so a rest day is easy to spot.
4. On the 31st, write your December wins in the box and pick the habits you carry into January.

Print tips

- A4 and Letter pages are both in this file; print the one your printer takes.
- Prints fine in black and white. 100% scale, no fit-to-page.
- Works in GoodNotes and Notability too: import the PDF and write on it.
