How to use it ✳

1. Print the page in your paper size.
2. When you finish a book, write its title on a spine.
3. Colour the spine in. Any colour, any pen.
4. When the shelves are full, print another page.

Print tips

- A4 and Letter pages are both in this file; print the one your printer takes.
- Prints fine in black and white. 100% scale, no fit-to-page.
- Works in GoodNotes and Notability too: import the PDF and write on it.
