Thanksgiving stickers

Print on sticker paper and cut along the dashed lines.

Small stickers and banners

The same stickers in a small size, plus three banners.

How to use it ✳

1. Print a sheet on A4 or Letter sticker paper, or on plain paper and use glue.
2. Cut along the dashed lines with scissors. Each sticker has a white edge, so the cut does not have to be exact.
3. Stick them on planners, gratitude journals, place cards and envelopes.
4. On a tablet, use the PNG zip from corenk.app: drag the transparent PNGs into GoodNotes or Notability.

Print tips

- A4 and Letter pages are both in this file; print the one your printer takes.
- Print at Actual size or 100% so the stickers keep their size.
- Matte sticker paper takes the warm colors best; let glossy paper dry for a minute.
